Work to be performed on the City Right-of-Way (please indicate dimensions and details of the proposed work):

The Owner/Developer and Contractor agree to comply with the regulations of the City of Carbondale, with regard to the installation of any sidewalks, driveways, curbs, gutters, culverts, trees, landscaping, and/or any other structure or improvement on the public Right-of-Way as required by the Carbondale Revised Code and Public Works Department.

Sidewalk Installation Criteria

City Sidewalk deferred at this time City sidewalk required prior to occupancy or within _____ days.
 Other: _____

Sidewalk and Driveway Design Criteria

1. Sidewalks within the public right-of-way must have a minimum width of 48 inches, a minimum thickness of 4 inches and a maximum cross slope of 1:50 (2.00%), and a maximum longitudinal slope of 1:12 (8.33%).
2. That portion of the sidewalk which extends through a driveway shall be a minimum of 6" thick and comply with the above provisions for width, cross slope and longitudinal slope.
3. The portion of a driveway that is on public right-of-way shall be a minimum of 6" thick.
4. All sidewalks and driveways shall be constructed of Portland Cement (P.C.) concrete with a minimum compressive strength of 3,500psi.
5. All sidewalks shall have a broom finish and shall not be constructed of stamped, colored or textured concrete.
6. No driveway entrance or sidewalk on public right-of-way shall be poured without prior notification and inspection by the City of Carbondale Engineering Division; please call (618) 457-3270 at least 48 hours prior.
7. The owner/developer and/or contractor shall contact J.U.L.I.E. at (800) 892-0123 or 811 a minimum of 48 hours prior to commencing any work.
