

Request for City Council Action

Date: May 19, 2015

Agenda Section: Consent Agenda No. 5	Originating Department: Public Works – Refuse and Recycling Finance – Purchasing
Item: Award of Purchase of a Front Load, Split Body Recycling Truck to Key Equipment of Bridgeton, Missouri in the amount of \$275,862.00 No. 5.8	Approved:

Background and Summary:

The Refuse and Recycling division currently runs two recycling routes with separate trucks; one for cans and bottles (metal, glass, and plastic) and one for mixed paper products. The City owns two (2) multi-compartment side loading cans and bottles trucks. The primary route truck is a 2002 Freightliner, and the backup truck is a 1995 International, which is actually the City’s original recycling truck. These two (2) trucks are at the end of their useful life and need to be replaced. The proposed front load split body recycling truck will replace both multi-compartment side loading trucks and will also improve recycling collection operations by allowing all recycling materials to be collected by one truck. The existing mixed paper recycling truck, a single compartment front loading truck, will serve as a backup recycling truck.

Specifications were prepared and the bid was advertised in the Southern Illinoisan on Sunday, April 19, 2015. Bid invitations were sent to six (6) vendors and three (3) bid packets were received on April 28, 2015 as shown on the attached Bid Tabulation. Two (2) of the bid received were “no bid” responses, resulting in the low bid being \$275,862 along with trade-in values of \$5,000 each for the 2002 Freightliner and the 1995 International trucks.

The lowest bid meeting the minimum required specifications was submitted by Key Equipment Co., Inc. of Bridgeton, Missouri in the amount of \$275,862 (including a trade in value of \$10,000).

Recommended Action:

The City Council is requested to award the purchase of a front load, split body recycling truck to Key Equipment Company of Bridgeton, Missouri in the Amount of \$275,862, including trade-in’s.

The City Council is also requested to declare the existing 2002 FL80 Freightliner Chassis (VIN# 1FVHBXCS62HK19847) and 1995 International 4900 Chassis (VIN# 1HTSDAANOSH228004) as surplus property for trade-in and disposal.
