The City Council of the City of Carbondale recently approved amendments to Title Three of the Carbondale Revised Code, as it applies to adequate shelter of animals within the City. The amendments were made in the interest of protecting the animals from inclement weather and temperature variations.

Under the revised ordinance, residents that keep animals on their property within the City of Carbondale must provide adequate safe and sanitary shelter and such shelter must be sufficient to provide natural light or artificial illumination, protection from weather and be a sufficient size for the animal to stand in an upright position and lie down stretched out so that no part of its body need touch any wall or roof of the structure. This shall not include animal carriers, recycled chemical drums or other personal property which is not intended to provide animal shelter.
