Executive Summary

This strategic Affirmative Action Plan is designed to take the City of Carbondale from its current position in regard to underrepresented groups to one that closely parallels the workforce availability demographics of the diverse community in which it serves. The goal is to bring members of all protected groups – including women, sexual orientation, people of color, and persons with disabilities – into all levels and segments of the City’s workforce in proportion to their representation in the relevant labor market, thereby achieving optimal utilization.

The City of Carbondale values and recognizes that having a diverse workforce enhances teamwork, service and productivity, and conversely, that having an environment that values employee engagement improves efforts to have a diverse workforce. It is impossible to communicate the City’s Affirmative Action Plan and related policies without first addressing the issue of diversity. The terms *equal employment opportunity*, *affirmative action*, and *diversity* are not *synonymous* nor are they interchangeable. They work hand in hand and represent the building blocks for creating an inclusive work environment. The underlying principle of equal employment opportunity is equitable treatment while the underlying principle of affirmative action is anti-discrimination. Inclusivity and respect, in turn, are the central themes of diversity. Through all these combined efforts, the City aims to integrate the responsibility for the engagement and retention of a diverse workforce throughout all levels of the organization by instituting culture change through a variety of efforts – leadership development, continuing education, regular communications, and employee involvement to name a few.

Background & Statement of Intent

The City of Carbondale has a population of approximately 26,000 and is located in Southern Illinois. Carbondale is the home of Southern Illinois University, a major research university with approximately 20,000 students from throughout Illinois, the United States and the world. The population of the city is almost one-half of the population of Jackson County. Southern Illinois University and Southern Illinois Healthcare are the largest employers in the Southern Illinois region, making Carbondale the professional, a medical, and retail center of Southern Illinois.

The City of Carbondale operates under the Council-Manager form of government. The Mayor and City Council appoints the City Manager, who appoints all City employees. The City offers a wide range of services including police and fire protection, street maintenance and public parking, water and sanitary sewer systems, refuse and recycling, planning and zoning, housing programs, building code enforcement, and cemetery management.

Executive Order 11246, as amended, and its implementing guidelines developed by the U.S. Department of Labor's Office of Federal Contract Compliance Programs, requires employers implement a written affirmative action program. The City of Carbondale's plan sets forth current and future action the City government takes regarding affirmative action and equal employment opportunity. The plan also includes provisions for veterans and persons with disabilities.

The City of Carbondale is dedicated to achieving a workforce environment that reflects the diversity of the City. Carbondale has a very deep-rooted populace and history of minorities within the City. The implementation of a viable Affirmative Action Plan helps to strengthen this diversity. Having a plan also serves as validation of the City's willingness to comply with applicable laws that regulate fair practices in employment and demonstrates the City's aggressiveness in identifying and eliminating inequitable policies, practices, and procedures.

Affirmative Action Policy Statement

This statement is to reaffirm the City of Carbondale's policy on providing equal employment opportunity to all employees and applicants for employment in accordance with all applicable Affirmative Action laws, directives, and regulations of federal, state, and local governing bodies or agencies thereof.

The City of Carbondale will not discriminate against any employee or applicant for employment because of race, color, sex, age, national origin, sexual orientation, disability, veteran status, marital status, familial status, or religion. The City of Carbondale will take affirmative action to ensure that all employment practices are free of such discrimination. Employment practices include, but are not limited to, the following: hiring, promotion, demotion, transfer, recruitment, disciplinary action, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

The City of Carbondale prohibits the harassment of any employee or job applicant on the basis of their protected class status.

The City of Carbondale will commit the necessary time and resources, both financial and human, to achieve the goals of Equal Employment Opportunity and Affirmative Action.

The City of Carbondale will evaluate the performance of its management and supervisory personnel on the basis of their involvement in achieving the Affirmative Action objectives as well as other established criteria. Any employee of the City who does not comply with the Affirmative Action Policies and Procedures set forth in this Statement and Plan will be subject to disciplinary action.

The City Manager has appointed the Diversity & Compliance Officer to manage the Affirmative Action plan. The responsibilities of the position will include monitoring the Affirmative Action Plan, as required by any applicable governing body. Workforce Analysis

Under United States Public Law 88-352, Title VII of the Civil Rights Act of 1964, as amended by the Equal Employment Opportunity Act of 1972, all state and local governments that have 15 or more employees are required to file an EEO-4 report with the U.S. Equal Employment Opportunity Commission (EEOC). The EEO-4 Report lists the race, sex and salary of all City employees.

The City's workforce is grouped into eight macro-groups for reporting purposes. These macro-groupings, called EEO-4 Categories, are defined in "State and Local Government Information (EEO-4)", and issued by the U.S. Equal Employment Opportunity Commission. These categories are: Officials and Managers, Professionals, Technicians, Protective Service Workers Sworn, Protective Services Non-Sworn, Administrative Support (including clerical and sales), Skilled Craft Workers and Service Maintenance.

The Utilization Analysis is comprised of three reports summarizing certain aspects of the City workforce. These reports include the Job Group Analysis, Availability Analysis and the Underutilization Analysis.

- The Job Group Analysis displays the workforce combined into job groups (defined as one or more jobs with similar content, wage rates, and opportunities) and shows where women and minorities are employed throughout the City.
- The Availability Analysis shows how availability estimates are calculated for women and minorities in each job group.
- The Underutilization Analysis compares the current availability rates to current incumbency rates for women and minorities. This comparison is the basis for the establishment of placement goals for women and minorities. Data on women and minorities are analyzed separately to determine their respective utilizations, availability rates, and placement goals. After completing/conducting the Utilization Analysis and determining whether or not underutilization exists, goals equal to availability rates are set in job groups in which underutilization occurs. Only full-time employee counts are included in these analyses.

Establishment of Goals

The Goal Analysis measures the overall performance of the City in meeting identified goals, and identifies areas where good faith efforts occur. Goals are established for job groups in which minorities and women are underutilized. Goals represent placement rates for the current year. For example, if the availability rate for female professionals is 20%, then the corresponding goal or placement rate is 20% for that year. Therefore, a unit having ten placement opportunities should make an effort to hire at least two females. The Diversity & Compliance Officer distributes and discusses unit goals with the City Manager. Department and division heads review goals established for their areas and develop plans to meet those goals. The Human Resources Department also receives copies of this information to assist units with meeting goals.

Placement goals are important because they provide a means of quantitative evaluation. Goals are not quotas and are not used to discriminate against any applicant or employee. Goals are established and reviewed annually.

Personnel Activity Analysis

Personnel Activity Analysis include the Applicant Flow and Hire Analysis, the Promotional Analysis, the Termination Analysis and the Equal Pay Analysis, all done by the City.

- The Applicant Flow and Hire Analysis is maintained on applicants seeking employment with the City. The Diversity & Compliance Officer maintains applicant flow data on officials and administrators, professionals, technicians and protective service workers, paraprofessional, administrative support, skilled craft and service maintenance positions while the Administrative Services Department keeps information on all applicants applying for positions with the City. An analysis and comparison of information will help to determine the rate at which applicants and employees apply for, and are selected for, employment opportunities.
- The Promotional Analysis measures how successful women and minorities were in applying for and obtaining advancement within their areas of employment or in other areas within the City. This analysis is conducted for both non-bargaining unit and bargaining unit (labor contract) promotions.
- The Termination Analysis tracks those employees that have separated from City service. Terminations are defined as any separation from City employment (voluntary or involuntary). The Diversity & Compliance Officer reviews all terminations to identify areas of potential adverse impact for minorities and women and will review and discuss this information with the City Manager.
- The Equal Pay Analysis measures equal pay data for minorities and women employees by job classification.

In order to monitor the success of this Affirmative Action Plan, the Diversity & Compliance Officer will, on an ongoing basis, compile statistical data by race, sex and other appropriate characteristics regarding the composition of appointees and the work force for each position classification.

Title VI prohibits discrimination on grounds of race, color, or national origin in federally assisted programs.

Title VII prohibits discrimination on the grounds of race, color, religion, sex or national origin by employers or unions with 15 or more employees. The designation employer includes the government of the United States, corporation wholly owned by the United States, and state or political subdivisions thereof.

Civil Rights Act of 1991

The Civil Rights Act of 1991 expands the protections afforded individuals under the Civil Rights Act of 1964. It provides for damages for intentional discrimination and unlawful harassment in the workplace and codifies the concepts of “business necessity” and “job related” as enunciated in various Supreme Court decisions. Additionally, it confirms statutory authority and provides guidelines for disparate impact suits under Title VII of the Civil Rights Act of 1964 and in response to recent Supreme Court decisions, expands the scope of relevant civil rights statutes.

Illinois Human Rights Act

The Illinois Human Rights Act prohibits discrimination in employment on the basis of race, color, sex, religion, national origin, ancestry, age (age 40 and over except police and fire), marital status, sexual orientation, physical or mental disability, or unfavorable discharge from military service. The law provides for the creation of the Illinois Human Rights Commission and the Department of Human Rights. The law was enacted by P.A. 81-1216, B.B. 1377, L. 1979 and signed by the Governor on December 6, 1979.

City Code of Ordinances Title 1-Chapter 4 Declaration of Personnel Policy

It is the policy of the City to be an equal opportunity employer. No officer or employee of the City shall discriminate against any other officer or employee or applicant for employment on the basis of sex, race, color, religious belief, national origin, political affiliation, marital status, age, sexual orientation or handicap unrelated to the person’s ability to perform the duties of a particular job or position, except where a bona fide occupational qualification exists.

Harassment

It is the policy of the City of Carbondale to eliminate sexual harassment in the workplace. If an employee feels that he/she has been the victim of sexual harassment, the employee is advised to follow the grievance procedures outlined in Title 1 Chapter 4 of the City Code of Ordinances. If the alleged harassment involves an employee’s immediate supervisor, the employee should take the grievance directly to the Human Resources Manager.

Equal Employment Opportunity Act of 1972

This is an amendment to the Civil Rights Act of 1964, which adds sex and religion to the Title VII portion and extends Equal Employment Opportunity (EEO) to state, local and municipal organizations, all employment agencies (private and public) and to labor organizations. This Act empowers EEOC to bring civil action against any organization, which is alleged to be practicing discrimination. The Act also gives the right to an individual to take a complaint directly to a court of law.

Age Discrimination in Employment Act of 1967 This Act prohibits arbitrary discrimination against persons 40 years of age or older.

Americans with Disabilities Act of 1990

Title I of the ADA prohibits discrimination in employment against individuals with disabilities and establishes the standards governing an employer’s affirmative duty to accommodate an individual with a disability. Title II of the ADA prohibits discrimination against individuals with disabilities by state and local governments.

The terms included in this list reflect references to explanations that are used in the City of Carbondale's Affirmative Action Plan (AAP) document. Although the City of Carbondale will use the terms listed below in good faith in connection with the AAP, such use does not necessarily signify that the City agrees that these terms are applied to any particular factual situation and is not an admission of noncompliance with EEO laws, regulations and objectives.

Affirmative Action- A program by which the City identifies conspicuous imbalance in the workforce and takes positive steps to correct underrepresentation of protected classes. It focuses on the hiring, training and promotion of protected classes where there are deficiencies.

Applicant- An individual who submits an expression of interest in employment for a specific position, possesses the basic qualifications for the position, and does not remove him/herself from consideration during the application process.

Appointing Authority- The elected official to whom a City position is subordinate.

Artificial Barrier- A requirement, procedure or standard for employment that is not related to successful job performance.

Bona Fide Occupational Qualification (BFOQ)- An exception to the restrictions of Title VII of the Civil Rights Act (1964) regarding discrimination on the basis of gender, religion and national origin. Under certain conditions, an employer may require persons of a specific gender, national origin or religious affiliation to staff certain jobs. The intent of this provision is to specify that there are certain jobs for which gender, national origin or religion may be legitimate qualifications. Neither race nor color may constitute a BFOQ.

De Facto Segregation- Segregation that is inadvertent and without assistance of City officials. It is not caused by any City action but rather by social, economic and other determinants.

Discrimination- The impact or effect of employment policies, practices and procedures that result in protected classes being less favorably situated in their employment when no bona fide occupational qualification (BFOQ) exists.

Disparate Treatment- A policy, practice or procedure that denies members of a protected class the same employment, promotion or transfer opportunities that have been made available to other employees or applicants.
